Easipower Plus™ CBE 50ml

A dual component battery powered bead applicator for cartridges

PRODUCT FEATURES:

- Cordless dual component applicator for all variants of 50ml side by side cartridges; one applicator per type and size.
- Other sizes and ratios of cartridges (within the 50ml range) can be fitted by changing the front part of the applicator (barrel), but keeping the handle Maximum rack speed of 8.0mm \ sec which gives higher material output.
- Maximum rack speed of 2.5mm\sec which gives higher material output.
- Rubber overmouldings for improved grip and comfort.
- Auto-reverse function to stop material flow when trigger is released.
- Rapid battery charge within 30mins (0-100%).
- Universal charger for worldwide use.
- Overload shut off function to prevent damage of the tool.
- Light weight for prolonged and comfortable use – even in difficult spaces.

SPECIAL FEATURE:

Dosing capabilities build in as a generic setting; all applicators are pre-programmed: Settings 1 (low) to 8 (high) – each delivers a different amount of material; tool runs continuously on setting 9 ("normal" beading without dosing); end user needs to set required dose with the dial 1-9 depending on viscosity of material and demanded application.

Customised settings available upon request.

The Cox Easipower Plus is part of a range of battery applicators. Designed for use with medium and high viscosity sealants and adhesives, the Cox Easipower Plus is ideal for semi-professional users.
